

Hi Tom:

I want to thank you and Sarah for taking the time to visit with us at Teen Challenge, sharing God's Word, and sharing many important archeological finds as you tied Scripture and culture into the information. You have inspired me to study the Word in a different way, using all of the resources afforded us through modern technology and literature.

I thoroughly enjoyed listening to you quote the Scriptures from memory. It was as if you were telling an intriguing story that kept me on the edge of my seat. It actually did! It is apparent that you have done far more than memorize Scripture. You have hidden it in your heart as is evident in your life. You have impacted the lives of many young men here at Teen Challenge who have been encouraged by your God-given skills and talents.

We hope to see you and Sarah next year (along with your new little one), as you share more of God's Word with us.

Blessings,  
Susan McCall
