

Dear Tom,

Thanks for coming down to Southern California to share your ministry with us. Hearing the Scripture presented in the way that you do is powerful and enriching. There is a great benefit in hearing a whole book of the Bible recited from memory in one sitting. After hearing Revelation, James, and Genesis 1-11, I feel like I know them in a deeper way. Our people really seemed to appreciate your reciting of the Word and the informative session about Bible archaeology as well. It was good getting to know you and your family, and we hope to see you again sometime.

In Christ,
