Dear Tom:

I want to thank you for participating in the Beth Chaim Messianic Congregation first anniversary Shabbat services as our guest speaker.

Your passionate and creative delivery of the scriptures from memory was truly uplifting to everyone in the congregation. We witnessed the Bible come to life as though we were back in the Old Testament times listening to the Word God being shared around a fire.

What was so meaningful about the presentation is how you tied your gifts to recite scripture by memory to the importance for all of us to memorize scriptures and to hold them close to our heart.

I truly heard many people start discussing how they were going to begin as you suggested with a few scriptures and then continue with more and more, perhaps even a book like Ruth.

I would highly recommend you and your ministry to any Temple, Church, Sunday School Class, Youth Program, Ministry or Association. Your talk would be great as a special dinner theatre type program or in front of any size congregation, group or class for their primary service or meeting.

We look forward to having you back and supporting your ministry.

Rabbi Jay Fielding
